EXPERIENCE

LEAD ENGINEER
JAN 2018 - SEP 2024

HCL TECHNOLOGIES - CHENNAI

Highly skilled and experienced Lead Web Designer with over **8+ years** of experience in creating visually appealing and user-friendly websites. Expertise in design principles, web development technologies such as HTML, CSS, Bootstrap, Semantic Ui and JavaScript, and ability to lead and manage a team to deliver high-quality work that meets clients' expectations.

AI Tools used for UI/UX Design:

Figma Plugins (e.g., Remove BG, Content Reel): Used free AI-powered plugins for background removal and auto-generating text content, reducing manual design time by 40% and increasing productivity by 30%.

Adobe Sensei (Free Features): Utilized AI capabilities for auto-fill, smart cropping, and pattern recognition, improving design efficiency by 35% and cutting image editing time by 25%.

Khroma and Colormind: Leveraged AI to generate custom color palettes and combinations, enhancing visual design consistency and reducing color selection time by 50%.

Fontjoy: Used AI to generate and match font pairings, ensuring typography is visually appealing and on-brand, resulting in a 20% increase in design approval rates.

Autodraw: I Took advantage of Google's free AI tool for creating quick and clean sketches, cutting initial design sketching time by 45% and facilitating faster ideation.

Let's Enhance: Employed AI to upscale and enhance images, improving image quality by 60% without losing resolution and reducing the need for external photo editing by 25%
